Sec. 148-20. Fences

- A. Before a fence above three feet in height shall be erected within a required yard area, a building permit must be obtained from the Zoning Enforcement Officer. A request for a permit shall be accompanied by a site plan which shall show the height and location of the fence in relation to all other structures and buildings, and in relation to all streets, lot property lines and yards.
- B. When located twenty-five feet or more from the right-of-way line, fences may be erected, altered or reconstructed to a height not to exceed eight feet above ground level.
- C. When located within twenty-five feet of the right-of-way line, fences may be erected, altered or reconstructed to a height not to exceed five feet above ground level, except as may be otherwise regulated through Site Plan Review or by Section 148-18 above.
- D. These restrictions shall not be applied so as to restrict the erection of a wall for the purpose of retaining earth.
